This supplement implements and extends guidance of Air Force Manual (AFMAN) 23-110V2PT2CH19, *Stock Control*, and AFMAN 23-110V2PT2, AFSPC Sup 1. This supplement describes 45 SW procedures for use in conjunction with the basic AFMAN and AFSPC Supplement. It applies to all 45 SW activities, tenants and contractors operated or supported by the USAF Standard Base Supply System. This supplement does apply to Air Force Reserve Command and Air National Guard units.

19.21.2.2. Records Management will maintain ECC records using the automated method. The ECC monitor must take the following actions:

19.21.2.2.1. (Added) Enter the stock number and the applicable exception code to the ECC program.

19.21.2.2.2. (Added) Use the remarks section to record reasons, justifications, cross-references for supporting documentation (letter, messages, manuals), etc., include processing instructions if applicable.

19.21.2.2.3. (Added) Enter the stock control desk number or the initials of the person initiating the ECC after the reason in the remark section.

19.21.2.2.4. (Added) Enter the date the ECC was assigned, in the remarks area, after the desk number.

19.21.2.2.5. (Added) Review and validate the ECC list monthly utilizing report U03. Make corrections and deletions as applicable.

19.21.2.2.6. (Added) Produce a copy of the automated ECC list quarterly for the review. File the completed review.

19.22.2.2.2. Stockage Issue exception code "S" and REX "5" will be assigned to items loaded under the Instrumentation Radar Support Program (IRSP)(routing identifier JBZ) All items loaded for the IRSP which have an ERRC of XD2 and a RID of F96 are excluded.

19.36.2. Predetermined adjusted stock level requests will be filed separately in ORG/SHOP (007SC) sequence. AF Form 1996, Adjusted Stock Level, will be cross-referenced by detail document number with the appropriate supporting documentation.

19.40.1. The R-35 will be processed in three copies.

19.77.2. RID F96 and JBZ IRSP excess items will be reported to CSR/RCU/OM, MU4210A for disposition instructions. Excess exception code "1" will be assigned to all IRSP items. ECC images will not be required.

19.88. Records Management will maintain the last 30 copies of the D28; earlier copies will be destroyed.
